

AIG Cyber Risk Consulting Services

Despite a company's best efforts to protect itself from a cyber attack through its own IT department, it may not be enough in today's rapidly changing cyber environment. AIG Cyber insureds are armed with a wide range of preventative tools, including up to EUR10,000 value in complimentary* services, adding valuable layers to a company's line of defense.

Complimentary Tools and Services*

Complimentary tools and services are included with each CyberEdge policy for eligible clients* to provide knowledge, training, security, and consultative solutions.

Employee Cybersecurity eLearning and Phishing Simulation

- Available in 11 languages

Timely and measurable managed employee training and compliance service, tailored to employee roles to reinforce clients' security policies.

Blacklist IP Blocking and Domain Protection

- Reduces the attack surface up to 90% ahead of the firewall

Enables organizations to control their exposure to criminal activity by leveraging vast threat intelligence repositories, precision geo-blocking, and black-list automation to reduce risk.

Infrastructure Vulnerability Scan

- Identification of high risk infrastructure vulnerabilities

Clients can select up to 250 of their IP addresses to have experts examine to identify critical vulnerabilities that are open to potential exploits by cyber criminals, with a follow up scan 90 days later to verify your efforts at remediation.

Cybersecurity Information Portal

- Online access to cybersecurity information
24/7 access to current cybersecurity information.

Security Ratings

- Network security scoring

Using an easy A-F grading system, clients are scored from an "outside-looking-in" perspective of their overall cybersecurity in ten key risk categories.

* Clients purchasing CyberEdge and spending more than € 7,500 in premium qualify for these complimentary services
